Portfolio:
czinaaz-portfolio.netlify.app

I am a dedicated and organized person with a strong passion for web development and gaming. As a Full-Stack Developer, I specialize in HTML, CSS, JavaScript, React, and Node.js building responsive and visually engaging websites. In my current role, I have hands-on experience working with Jira, Javascript, HTML, and CMS (SamsungShop and Adobe Experience Manager) and have experience as a manual tester. My background includes customer service, teamwork, and a proven ability to adapt to new environments quickly.
